# Analyzing EC Website

## ■ Technology Requirements

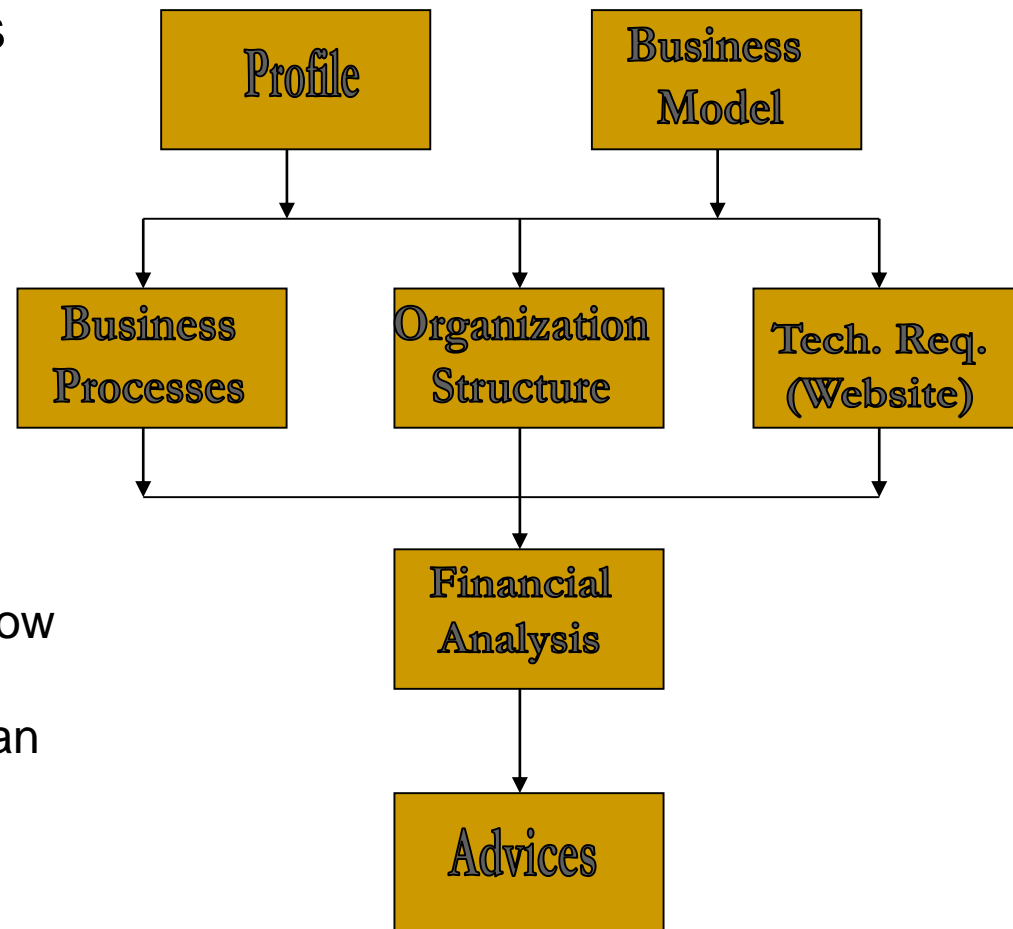

- Information systems
- Website Design
- Other technologies

## ■ Financial Analysis

- Cost & Profit
- Analyze how the business makes profit

## ■ Advices

- Predict if the business will grow in the near future
- Suggest how the business can be improved

---

# Analyzing EC Website

## ■ 1. Company Profile

- ❑ Founding year and founding members
- ❑ Core business and major market
- ❑ Company size
- ❑ Other significant information

## ■ 2. Business Model

- ❑ Services delivered, and/or products being sold (including both core and non-core)
  - ❑ Customers (including both core and non-core)
  - ❑ Partners and/or suppliers
-

---

# Analyzing EC Website

- 3.1. Core Business Processes
  - Order placement
    - Product browsing
    - Shopping cart
    - Payment
  - Order fulfillment
    - Payment settlement
    - Items collection and packaging
    - Delivery
  - Customer support
    - General enquiries
    - Return/Refund

---

# Analyzing EC Website

- 3.1. Core Business Processes
  - Manufacturing
    - Product design
    - Materials planning and procurement
    - Production scheduling
    - Logistics
  - Product information update
    - Product photo taking
    - Product description
  - New product design

---

# Analyzing EC Website

- 3.2. Supporting Business Processes
  - Operations (Processes) management
    - Product design and production
    - Order placement, fulfillment and customer support
    - Marketing and customer relationship management
  - Accounting
  - Information management
  - Human resource management

# Analyzing EC Website

- 3.2. Supporting Business Processes
  - Marketing
    - Media marketing
    - Newsletters
    - Advertising
  - Financial management
    - Foreign exchange management
    - Investment
    - Acquisition
  - Public relation
    - Press conference and press release
    - Corporate communication
    - Corporate social responsibility

R&D: New product design, new service delivery process

R&D

Marketing/Sales

Service Delivery Process (Routine work)  
-Repeated every month, every week, every day

Customer Service

Services from Suppliers

Services/Products to Customers

Bank & Investors

Management Processes

Management Process  
-Quality Control  
-Schedule Tracking

Finance/Acct. (Process)

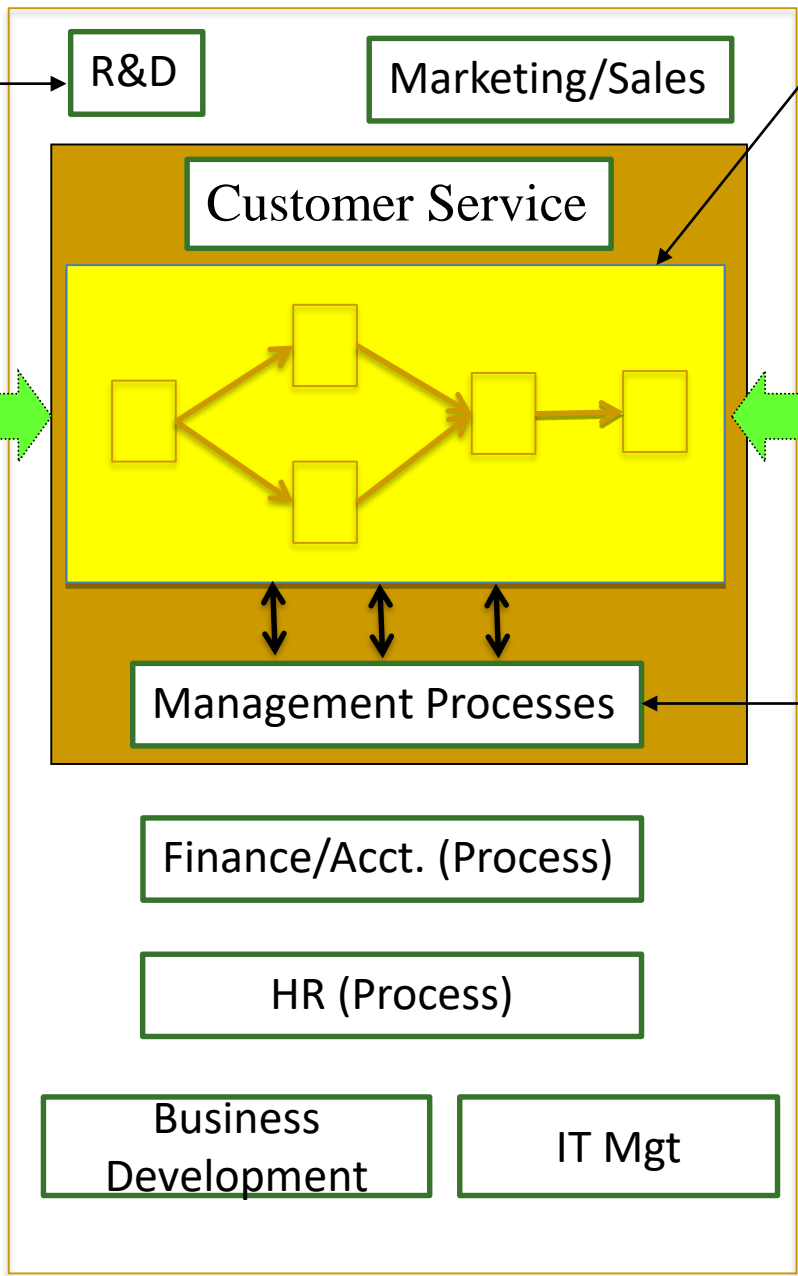

HR (Process)

Business Development

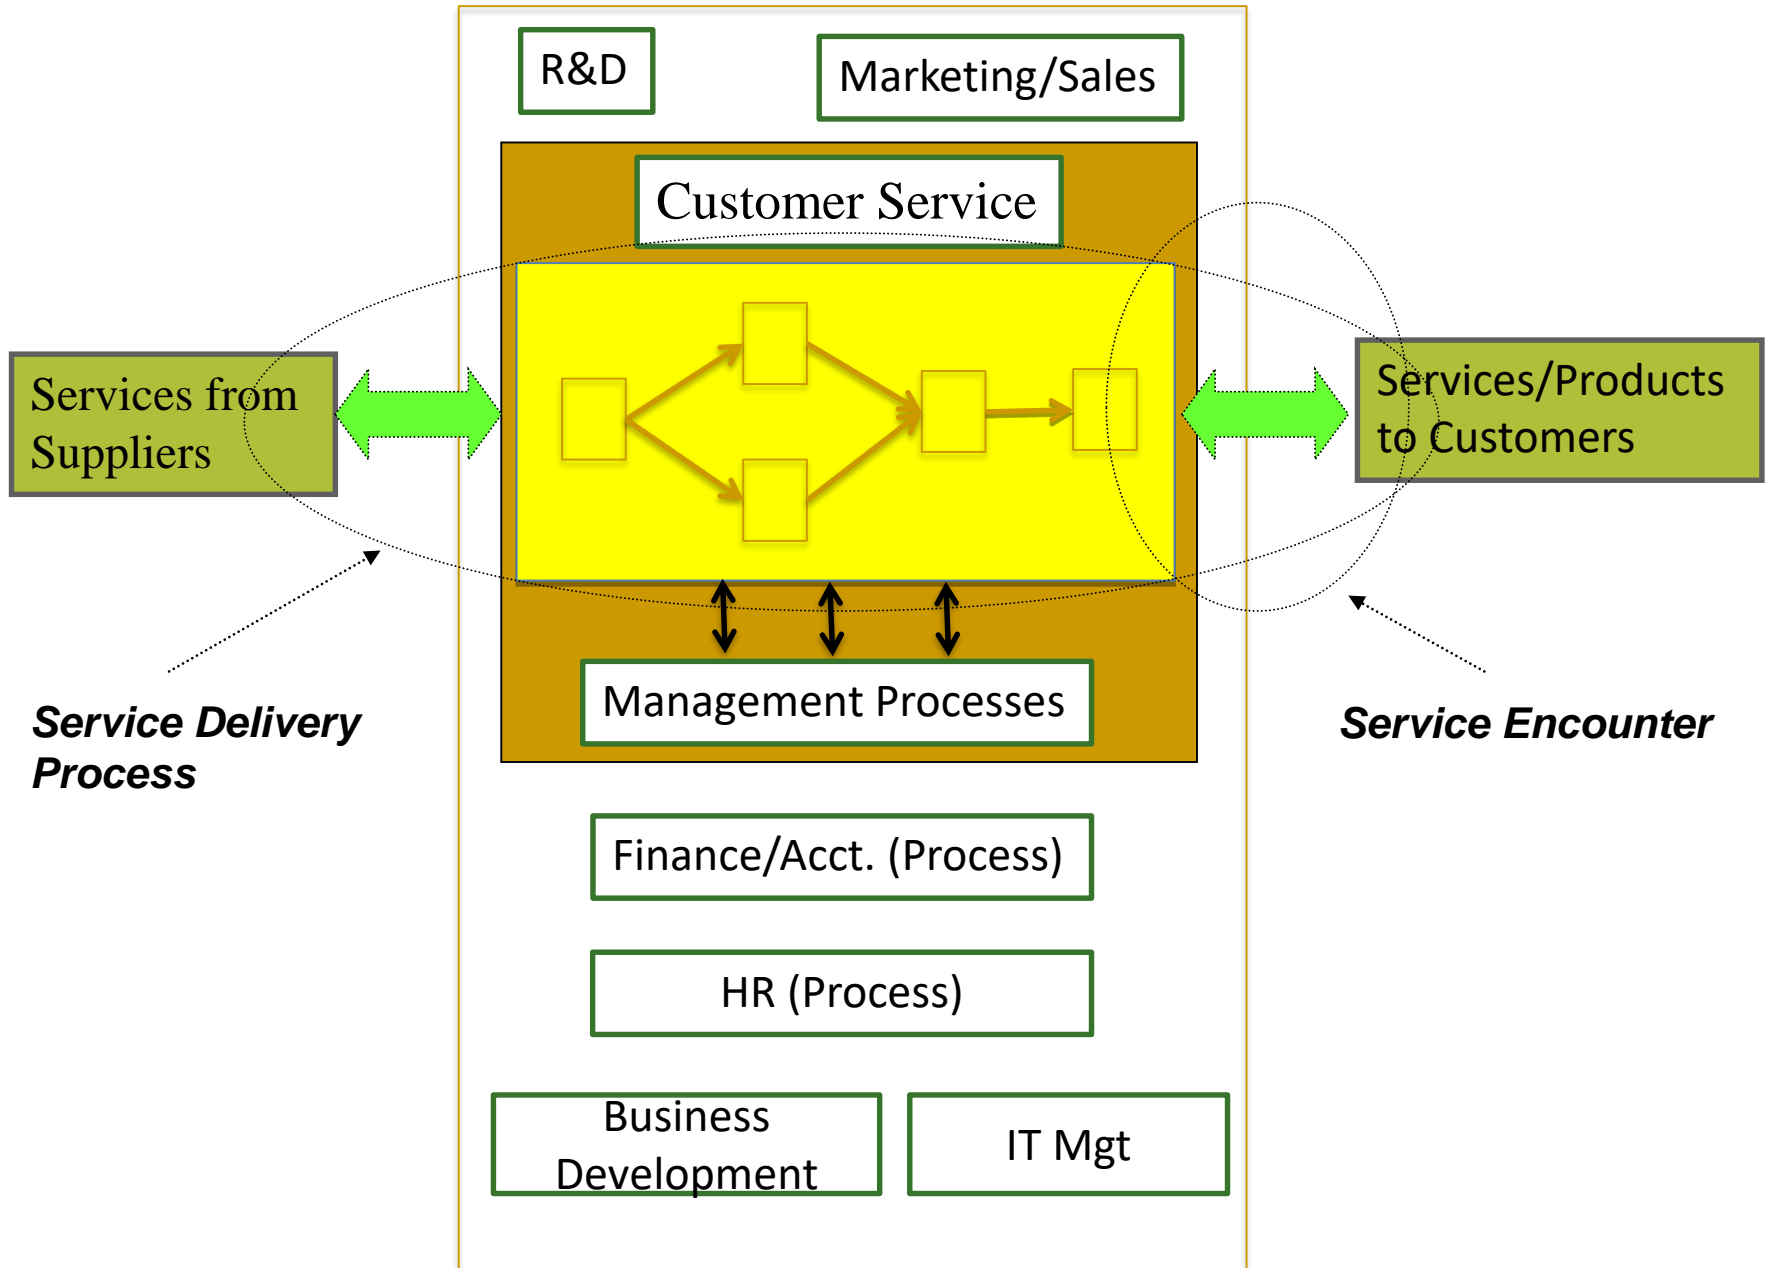

IT Mgt

Support Processes

External Organizations

# Conceptual Diagram of an Organization Design

---

# Analyzing EC Website

- 4. Organization Structure (company structure)
  - Broad of directors, general manager (or CEO), various departments and sections.
  - Number of staffs in each of these departments and sections; the education levels of the staffs.
  - Roles and responsibilities of the top management personnel, the departments.
  - Roles and responsibilities of the staff members. Besides, you need to identify what skills (or professional skills) they should have.
  - Note: Some companies already have post their structures on their websites. Double check if the structure is consistent with the business processes described in the last two parts.

---

# Analyzing EC Website

## ■ 5.1. Information Systems Requirements

- ❑ Note: Website is just a part of the enterprise information system.
- ❑ Single enterprise information system or integration of many management information systems?
- ❑ Overall structure of this enterprise information system
- ❑ Information technologies that support the EIS.

## ■ 5.2. Other Technological Requirements

- ❑ Example: RFID system and mobile devices for use in warehouse
- ❑ Example: Trucks for product deliveries and the GPS system for tracking their locations

# Analyzing EC Website

## ■ 5.3. Website Design

- Main purpose: *Rebuilt the system to support the business operations of the firm being analyzed.*
- (a) Hyperlinks structure: Main page, sub-main page, and etc.
- (b) File/Folder structure: All the files (program files, data files, image files, videos and audio files) necessarily to support the business and which folders (directories) they are located.

---

# Analyzing EC Website

## ■ 5.3. Website Design

- ❑ (c) Program design: Programming languages, program files and the servers they are located.
- ❑ (d) Platform (window or unix), web server, DB server, file server and other servers that support the business.
- ❑ (e) Server architecture (system architecture), including the countries where the servers are located.

---

# Analyzing EC Website

## ■ 5.3. Website Design

- (f) How does a customer purchase products or enjoy services from the website?
- (g) How do the employees, managers and suppliers make use of the website?

---

# Analyzing EC Website

## ■ 6. Financial Analysis

- ❑ The main purpose for this part is to analyze if the business is profitable.
- ❑ Revenue – Expected earning from the customers
- ❑ Cost – Expenses on salaries, payment to suppliers and partners, rent, electricity & water bills, etc.
- ❑ Note 1: You need to make certain assumptions on the market share, volume of transaction and etc.

---

# Analyzing EC Website

## ■ 7. Advices

- ❑ Ways to increase revenue
- ❑ Ways to reduce operational cost
- ❑ Ways to improve productivity
- ❑ Better shut down the business
- ❑ Other advices

---

# Analyzing EC Website

## ■ Tips

- Don't think big!
  - Don't select a big EC website, like Google or Facebook.
  - Don't select a website which is a subsidiary of a group, say YouTube, as you can hardly analyze the financial situation of the website alone.
  - Don't select a website which is owned by a multinational corporation, like Foodpanda, AirBNB and Uber.
- Don't select an emarketplace like eBay and Alibaba.
- Don't select a website which is maintained by an NGO.

---

# Analyzing EC Website

## ■ Tips

- ❑ Select a Taiwanese website whose customers are Taiwanese only.
- ❑ Select a Taiwanese website of which you are a customer as well as a member.
- ❑ Think about how you will run the business and start every analysis from scratch.
- ❑ Except the company profile, don't use any information over the Internet for your analysis.
- ❑ Group leader should not simply combine all the writings into a single report. The leader has to proofread and even rewrite the written report if necessary.

---

# Analyzing EC Website

- (\*\*\*) Note on the sources of information
  - You need to provide the sources of information available on the Internet and/or your reasonable guess, for all your arguments.
  - You should pay attention on the release dates of the sources of the information. That is to say, the information you rely on must be the updated information.
  - In the business sector, many things can change within a year.

---

# Analyzing EC Website

- (\*\*\*) Note

- (i) Information revealed in Part 5.3 (a) to (g) must be supported with evidences. Otherwise, you need to explain your speculations.
- (ii) Information revealed in Part 5.3 (a) to (g) must be consistent.
- (iii) Information revealed in Part 7 must be consistent with the information revealed in Part 1 to Part 6.

---

# Analyzing EC Website

- Written reports and presentations
  - Progress Report I
    - Part 1 to Part 3
  - Progress Report II
    - Part 1 to Part 6
  - Final Report
    - Part 1 to Part 7

---

# Previous Projects

## ■ Simple Services

- ❑ MyNext (\*)
- ❑ EZTABLE
- ❑ Lativ (\*)
- ❑ Travelocity
- ❑ Yahoo! Auction
- ❑ Pinkoi

## ■ Complex Services (Not recommended)

- ❑ Amazon
- ❑ Facebook
- ❑ Youtube
- ❑ Groupon
- ❑ Google
