

IT2025 Supplementary Note 02

October 17, 2025

1 Lecture Schedule

In this semester, there are sixteen lectures. Thirteen lectures are scheduled on Friday evenings and three (make-up) lectures are scheduled on Tuesday evenings. The teaching venue is Room 319 at the CSSM Building. Duration of each lecture is around three hours, from 18:30-21:30. The class room will be open at 18:00. Lecture might start earlier if more than half of the students are present.

2 Project Report Presentation

Progress report presentations are scheduled on Lecture 8 and Lecture 9. The final report presentations are scheduled on Lecture 15 and Lecture 16. If necessary, make-up lecture could be arranged.

2.1 Attendance

As progress reporting and final reporting are treated as the mid-term exam and final exam, students must be present in these four lectures and attend all presentations. Each student has to ready both written progress (resp. final) report and presentation slides before progress (resp. final) reporting.

2.2 Presentation Sequence

The sequence of presentations will usually be arranged in random order. Under exception situation with supporting document proof, a student can request for special arrangement.

2.3 Presentation Duration

Each student has 25 minutes for presentation, questions and answers. Thus, it is expected that six presentations will be completed in the first reporting session and five presentations will be completed in the second reporting session.
